ANNUAL RENOVATION PROJECT TO TRANSFORM CHARITY SPACE: OCTOBER 1-3

Edmonton, Alberta – On October 1, over 100 volunteers from the land development and home building industry came together to kickstart their annual Renovation Project.

The Renovation Project brings together member volunteers to revitalize homes, spaces, or places in partnership with a chosen charity or non-profit organization. For over a decade, this initiative has transformed spaces for non-profits in Edmonton, creating safe and welcoming environments for those in need.

This year, we will be renovating Kids Kottage's outdoor playground. Kids Kottage is a charity that supports clients who may face family violence, poverty-related challenges, like food insecurity, homelessness, or a crisis such as a broken furnace in winter.

"The annual Renovation Project allows us to show off the incredible work of our renovators," says Kalen Anderson, CEO of BILD Edmonton Metro. "It's projects like these that allow us to showcase the industry, work together in the community, and provide our resources, time, and assistance to important charities and projects across the region."

This year's Renovation Project will assist Kids Kottage in renovating their outdoor play area, which will enable more kids to safely play outside, with updated equipment.

"We are extremely happy to be able to reimagine a space targeted for kids ages 3-10, and to create more meaningful zones for the designated areas," says Renovation Project Co-Chairs, Jaimy Beaudoin and Myron Van Dijk.
